B Reading

3. Read the following passage, then answer the questions:

People find it challenging to solve problems quickly. They want to get fast results, or make money or make life easier. Often, they don't look into the future. They don't think about the long-term **consequences** of their actions. Much damage to the environment happens this way.

The story of DDT is a good example. It is a chemical which was developed to kill insects. It was invented in 1940, and very soon it was being used effectively by farmers all over the world.

The results, at first, were successful. The chemical killed the harmful insects which ate the food plants. More crops were produced, and both farmers and industry made a lot of money. However, the chemical had effects which scientists hadn't predicted. DDT not only killed the harmful insects, but it also killed useful insects. A few insects were strong. They survived and multiplied. In a few years, there were large numbers of these super insects which DDT could not kill. Clearly, DDT was making the problem worse. It was no longer worth using.

Another problem was that the chemical did not disappear. It stayed in the ground and found its way into rivers, lakes, and oceans. It was taken into the bodies of fish and animals. So, animals began to suffer from new different diseases. Humans also began to have problems, especially, in areas where DDT was widely used. Many governments stopped the use of DDT twenty years ago, but its effects are still with them.

They are very hospitable. It is particularly enjoyable to wake up on a Friday morning to the sounds of their music playing which are really quite artistic. However, I also love to hear them laughing when they make a mistake in their music playing. Besides music, carpentry is still the man's main interest, and most days he is outside in his workspace in the garden, making an artistic piece of furniture. My neighbors are ideal to live next door, too, because they can be very helpful if I need them. I respect them as they never interfere in my private life and I behave with them in the same way. We have helped each other with numerous emergencies such as fires and car accidents. We also co-operate with each other in little ways such as bringing the mail, when one of us is away. We sometimes meet when they invite me over for coffee, with some of their friends who are usually very interesting people: poets, painters, professors and other lively persons whom I enjoy meeting. The first English attempts to colonize North America were controlled by individuals rather than companies. Sir Humphrey Gilbert was the first Englishman to send colonists to the New World. His initial expedition, which sailed in 1578 with a patent granted by Queen Elizabeth was defeated by the Spanish.

A second attempt ended in disaster in 1583, when Gilbert and his ship were lost in a storm. In the following year, Gilbert's half-brother, Sir Walter Raleigh, having obtained a renewal of the patent, **sponsored** an expedition that explored the coast of the region that he named "Virginia." Under Raleigh's direction efforts were then made to establish a colony on Roanoke Island in 1585 and 1587.

The survivors of the first settlement on Roanoke returned to England in 1586, but the second group of colonists disappeared without leaving a trace. The failure of the Gilbert and Raleigh ventures made it clear that the tasks they had undertaken were too great for any one colonizer. Dear Mr Ali,

I am writing this mail to express my interest in the Sales Manager position at ABC Company. I have 10 years of marketing experience and wish to transition into a sales role at a prestigious company such as yours. I have many skills from my marketing career that can be translated to success in this role.

Although I have been an **asset** to my prior employer as a marketing manager, I have dealt with many experiences that support common sales skills. I work one-on-one with clients while managing a marketing team. My client relationships are valuable to me because they allow me to build our connection, provide relevant product offerings and continue an ongoing business relationship.

Because of my skills as a marketing manager, I've won numerous awards, including Manager of the Year and Employee of the Month on numerous occasions. This required not only strength in marketing, but also the instinct and ability to manage and motivate a team to work towards a common goal.

I believe my background in marketing would provide value for your team by adding a unique perspective. I am a fast and enthusiastic learner, ready to become a leader at ABC Company. If you know of a more appropriate position or an opening that has recently been vacated, I would be grateful for your consideration.

Sincerely,

Ayman Ahmed
