 Egypt is an amazing country.
 There are many historical places to visit, as well as stores, markets, and museums.
 People can go snorkelling in the Red Sea, go on a desert safari, climb mountains, or sail on the Nile.
 So, tourism is important but ecotourism is becoming very popular, too.
 Ecotourism is a way of traveling that doesn't damage the environment.
 It's more sustainable than traditional tourism, and it is designed to protect nature.
 People stay in simple accommodation, not large hotels, and they mustn't travel in ways that cause lots of pollution.

"Volunteering"
 There are many ways you can volunteer to help your community.
 It's important to protect the environment.
 You should reduce waste and help the environment.
 Don't use plastic bags or plastic bottles.
 If you have plastic bottles at home, recycle them.
 Let's all be good citizens and make the world a better place.
 We can volunteer at a local charity event or help out on a community project.
 Volunteering isn't boring.
 You'll be surprised how much you enjoy it.

Your favorite story
 I'm writing a review of one of Gaha's stories.
 The one about a man who goes to the market with his son and a donkey.
 The setting is the countryside, many years ago.
 Two of the characters- the man and his son- take turns riding the donkey because it's a long journey.
 When the boy rides the donkey, the people they pass say he should let his father ride.
 When the man rides the donkey, they say that he should let his son have a turn.
 Then, they say the donkey must be tired.
 So, in the ending of the story, they both carry the donkey!
