#### "Egyptian artifacts"

“We have so many artifacts. One reason is the climate. We have a hot, dry climate here in Egypt, so artifacts aren't damaged by cold and wet weather. This helps to preserve them. The Ancient Egyptians also knew that certain materials could last for a long time. That's why they built the Pyramids with granite .

#### "Animals in Ancient Egypt"

The Ancient Egyptians loved animals and kept many as pets. They particularly adored cats. There was a cat in almost every house. They believed that cats looked after them and kept them safe. They were good pets because they cleaned themselves and kept the houses free of pests like rats and snakes .

#### "Trade in Ancient Egypt"

The Ancient Egyptians traded with other countries, and metal was one thing they traded. They first found metal between rocks. They could melt and form it into different shapes. They made tools and weapons using metal. Gold was a popular metal for making jewelry. Silver was also used. Trade with other countries helped the Ancient Egyptian economy to develop .

### "Materials in Ancient Egypt"

The Ancient Egyptians knew that certain materials could last a long time. That's why they built the Pyramids with granite, a very hard and durable stone. They also used a lot of glass, which lasts forever. They also used clay, which is found close to the River Nile, to make pots. They liked to use gold not only because it is valuable, but it is also very durable .

### "Pros and cons of video games"

Video games are a favorite thing for many children. They can be a problem when you play them too much. However, I think they can be great when you do something that is very creative or exciting. You can often play with your friends, too. You can play adventure games where you can solve a problem. It can be fun .

### "Your favorite story"

I read a story of one of Goha's stories yesterday. It's about a man who goes to the market with his son and a donkey. The setting is the countryside, many years ago. Two of the characters - the man and his son - take turns riding the donkey, because it's a long journey.2 When the boy rides the donkey, the people they pass by say he should let his father ride. When the man rides the donkey, they say that he should let his son have a turn. Then, they say the donkey must be tired. In the ending of the story, they both carry the donkey.

### "Eco-tourism"

Tourism is important, but eco-tourism is becoming very popular, too . Eco-tourism is a way of traveling that doesn't damage the environment. It's more sustainable than traditional tourism, and it is designed to protect nature. People stay in simple accommodation, not large hotels. They mustn't travel in ways that cause lots of pollution .

### "The Ras Mohammed National Park"

The Ras Mohammed National Park on the Red Sea is a fantastic area for locals and tourists to visit. This beautiful area on the Sinai Peninsula is famous for its sea life, warm water, and amazing weather. People come from all over the world to snorkel and scuba dive there .

### "Helping the community"

At school, we started a project called Community Help. We all had to choose something we could do to support other people or things in our community . There were lots of ideas. For example, some people wanted to start vegetable garden in the school to grow fresh fruit and vegetables. That was really popular. Other people volunteered to help clean trash from the river, so that animals' habitats are safer .

### "Volunteering"

You learn many important life skills when you volunteer. You learn how to socialize and talk to people you wouldn't usually meet. Volunteering also gives you confidence. It's amazing to see how quickly teenagers grow in confidence when they start volunteering .

Fundraising helps charities get the money they need. It's good to give back to the place where you live .

### "Ways to be a good citizen"

There are lots of ways to be a good citizen. You can volunteer to help your community. You should be polite and kind to your neighbors. It's important to help people who are old or sick. You can call your neighbors to ask how you can help. You can offer to do their shopping or do jobs for them at home .

Dear Hany , How are things? I want to tell you about my toys. I found a box of my old toys at my grandma's house. There was a skateboard. I loved playing with it. I could go really fast! I found my old rollerblades though. There was an action figure, too. I loved looking at my old toys again. What about you ? Yours , Badr

Dear Eyad , I am happy to write this email to you. How are you? My favorite games are video games. I don't play them very often, though. Some of the images in modern video games are amazing. I've got a new games console, which I share with my sister. My favorite games are ones where you build cities. I've made a really big city using different bricks. It has animals and plants in it . **Subject:** Migrating birds

Dear Hany ,

How are you? I hope you are fine. I learned today about birds migration in science class. Many birds migrate to and from Egypt, and across it, because of where it is in the world. They migrate to find warmer weather. Some birds fly very long distances, making the same GE journey year after year. They might use the sun, the stars, or the things they can see on the way to know where they go. I enjoyed this lesson .

With best wishes ,

Samy

**Subject:** Picking up trash

Dear Aya ,

How are things? We try to help the community. We decided to clean the beach up. When we do a beach clean-up, we wear gloves to protect our hands. We carry black bags for the trash we collect. We use a grabber to pick up the trash. You open and close the fingers to pick up the trash, then drop it in the bag. It's better than picking things up with your hands .

Yours, Nesma

There are different ways to protect habitats. We should all try to protect animal habitats. There are lots of different habitats in Egypt such as the desert, the sea, mountains, and rivers. We mustn't waste water or drop litter. We can recycle paper, so people don't cut down trees. We can also plant flowers and plants
