A review about Modern technology

Modern technology is very important in our life. I think that we can't live without satellite technology. We have used satellite technology for many things we do every day. Before satellites were invented, people had always used maps to find their way. Now, most people use GPS, which uses a system of satellites that work together. We have GPS in cars, on phones and even in some modern motorbike helmets. Satellites also allow us to study the weather all around the world. Lots of people have satellite TV, so they can watch their favourite shows and sports matches.

.A review of cities of the future

I think cities will be different in the future. Architects are already planning how city life could be better for all of us. In the future, cities will have areas which will collect water when it rains. Cities will have houses for many people, but they will also have big parks. The trees and other plants will give us clean air, and also give a home to animals and birds. People will grow their own food in gardens and on roofs. The city will only use renewable energy. This won't come from outside the city,

.A review about a job I would like to do

When I grow up, I would like to be an editor. I want to work for English language news websites. I will decide which articles are the most important. I think that before the article goes on the website, I have to check the facts that are in it. Then, I have to check the writing because sometimes there are spelling mistakes or the language is not very easy to understand. I think I will have to choose photographs to go with the article. I think that I should get them from other websites. To do this job, I think I should study English and media at university.

A biography of a person I admire.'

I love poetry very much. My favourite poet is Farouk Shousha. He is a well-known radio presenter and a famous poet. He was born in Damietta in 1936. He went to a nearby elementary school. He went to the local library at a very early age, and was able to read many books in the Arabic language. Later on, he went to Cairo University and graduated from the faculty of Dar alUlum in 1956. He worked as a radio presenter in 1958 and later on a TV presenter, too. He always liked poetry and Arabic literature.

A review of a natural wonder in Egypt

Egypt has a lot of natural wonders which cannot be seen in other places all over the world. The Kharga Oasis is one of Egypt's natural wonders. It is surrounded by desert, far from the River Nile. It is visited by more and more tourists every year. It is full of date palm trees. These dates can be exported to other places. In general, oases lie in remote places. Sometimes it is difficult to be reached especially in extreme weather. People prefer visiting near places to remote ones. There are no many hotels or many houses around oases;

Recycling

Recycling is a very important solution for many problems such as waste, landfill sites and pollution. We can recycle many things such as plastic water bottles, paper, newspapers, magazines, glass bottles, old mobile phones and old computers. They have a lot of important materials inside them. They can help us to make many new things. When we throw these materials away, they can be very bad for the environment. We can build factories that recycle old things
