Lesson (2): • Problem-Solving Skills.

- There are common steps that you can take to solve problems:

(1) Construct a hypothesis:

- A hypothesis is an educated guess about how things work.
- Constructing a hypothesis is an attempt to answer your question with an explanation that can be tested.

(2) Test your hypothesis:

- Do not conduct any tests that are not safe!

(3) Check if your test is successful or not:

- Break down the complex problem into small sections, then solve it step-by-step.
- If you have a group of people solving a problem, assign each person a section.

مراجعات النخبة

Lesson (3)

• Presenting Information to Others.

Microsoft 365 includes different options, such as

PowerPoint

Word

Publisher

(1) A margin:

- It is the space left around the edges of your poster or billboard.
- A 25-mm margin will help design a good poster.

(2) Font size:

- If you choose a small font size, your audience will strain to read the information.
- If you choose a too-large font size, you'll have to limit the amount of information.

(3) Font type:

- Sometimes, simple fonts are better.
- A complicated or decorative font is distracting and hard to read.

(4) Colors:

- Choose no more than three colors, when designing a poster.

- Use bold colors for information you want to emphasize.

(5) Images:

- Use clear, good-quality, and appropriate images to the content you are sharing.

Lesson (5)

• **Algorithm**

- **Algorithm:** It's a series of steps that explain how to do a task.

- When you make a meal, you follow a recipe, that is a type of algorithm!
- When you type keywords, the search engine uses algorithms to provide results.
- Computers and applications use algorithms to perform specific tasks.

Lesson (6)

• **The Principles of Coding.**

- **Coding:** It's the writing of multiple algorithms to make a complete program.

- Online animations, movies, and online games are created using coding!

- Computers, like people, speak different languages.
- There are many websites, like Code.org, that can help you learn to code.
- You can create mazes on Code.org.

Lesson (7)

• Graphic Art

- **Microsoft Paint:** It is a popular graphics editor that will help you create your own drawings or edit images on computers. 
- To open Microsoft Paint, click on the Start-up Menu, then Accessories, then click on MS Paint.
- The top of the screen is like Word and Excel.
- **Menu Bar:** It includes options for opening, saving, and editing features.
- **Toolbox:** It includes tools that you need to make your drawing.
- You can cut a part of an image using the cropping tool.
- You can change the size or direction of the photo in MS paint.
- You can fill colors using the color options.

ICT

- Microsoft Word also offers graphic tools to create a graphic design.

- Click on the "Insert" menu bar to see the different options, such as: Shape, Icons, 3D Models and Smart Art.

Lesson (8)

• Creating a PowerPoint Presentation

- You can use Microsoft PowerPoint to create presentations that include:

(1) Text

(2) Images

(3) Animations

(4) Special effects

- At the top of the PowerPoint screen, you will see a Menu Bar.

- Use this first slide to name the title and subtitle of your presentation.

- In the subtitle box, you can also include your name.

- A slide is a presentation page that contains text and images.

- On the left side of the screen, you will see a thumbnail or preview image of each slide you're creating.

- To choose the layout of each slide, click the "Layout" icon on the "Home" menu.

ICT

- 1- **Design:** It includes background colors.
- 2- **Draw:** It includes drawing tools.
- 3- **Transitions:** It includes visual effects to use between each slide.
- 4- **Animations:** It includes animated effects for each slide.
- 5- **Slide Show:** It makes you decide how you'd like to present and time each slide.

Note:

- You can view the presentation by clicking the "View Show" icon or the F5 key on the keyboard.
- Avoid wordy paragraphs or sentences.
- Be sure to use a font size and style that are readable.
- Use relevant images instead of text whenever possible.

Choose the correct answer:

1- Microsoft 365 package contains

- a- MS Word b- Paint
 c- Google Chrome d- a & b

2- The amount of empty space between the edges of a poster is called the

- a- font b- margin c- image options d- border

ICT

3- Make sure to choose a font size that is when designing a poster or digital billboard

- a- very small b- easy to read
- c- very large d- complicated

4- To design a digital poster or billboard, you will need.....

- a- a computer b- GPS c- TV d- a router

5- If you use font size, you will have to limit the amount of information.

- a- small b- too big c- suitable d- tiny

6- When designing a poster, sometimes, fonts are better.

- a- decorative b- simple c- complicated d- a & c

7- Use images to the content you are sharing in the poster.

- a- clear b- low-quality
- c- inappropriate d- irrelevant

8- Use for the information you want to emphasize.

- a- small font size b- bold colors
- c- tiny font d- a & c

9- are a set of arranged steps to solve a problem.

- a- Search engines b- Algorithms
- c- Keywords d- Sentences

10- You can type into the search engine to search for information online.

- a- keyboards b- algorithms
- c- keywords d- symbols

11- When you prepare a meal, you follow a recipe; this is considered as a/an

- a- augmented reality b- algorithm
- c- digital blogging d- order

12- An algorithm is a/an to do a task.

- a- series of steps b- software
- c- application d- hardware

13- is writing multiple algorithms to create a complete program.

- a- Windows b- MS Word c- Coding d- Paint

14- You can learn coding and create mazes using many websites, such as

- a- Code.org b- Vlaby
- c- Mapmaker interactive d- Facebook

ICT

- 15-** Like people, speak different languages
 a- Cars b- Animals c- Rocks d- Computer
- 16-** You can create animations, movies, and games using.....
 a- Excel b- coding c- Word d- Google
- 17-** You can at Code.org
 a- learn coding b- create mazes
 c- eat breakfast d- a and b
- 18-** The first step in problem solving is
 a- hypothesis testing b- asking your teacher
 c- hypothesis building d- none of the previous answers
- 19-** is an attempt to answer your question with an explanation that can be tested.
 a- Hypothesis building b- Hypothesis testing
 c- Solving problems d- None of the previous answers
- 20-** A/Anis an educated guess about how things work.
 a- algorithm b- maze c- hypothesis d- test
- 21-** To solve a specific problem, you mustthe problem.
 a- leave b- break down c- prepare d- ignore

ICT

22- You should be careful when solving problems that may pose a risk to you during the step.

- a- hypothesis building b- hypothesis testing
c- data collection d- reporting

23- You watched your teacher make sure that the keyboard cable is connected to the place designated for it; this means that he is taking the step.

- a- hypothesis building b- hypothesis testing
c- digital footprint d- a and b

24- When you prepare a meal, you follow a/an

- a- recipe b- algorithm c- a & b d- letter

25- is one of the sites that helps learn programming.

- a- Code.org b- EKB c- Google d- Wikipedia

26- Microsoft is a popular graphics editor.

- a- Word b- Excel c- Paint d- Facebook

27- The top of the screen of Microsoft Paint is like.....

- a- MS Word b- MS Excel
c- Skype d- both a and b

28- Microsoft Paint is a popular editor.

- a- features b- graphics c- video d- word

29- In Paint, you can

- a- draw b- add text c- search d- both a and b

30- The in MS Paint includes options for opening, saving files, and editing features.

- a- Toolbox b- Layout c- Edit bar d- Menu bar

31- You can click on the “.....” in MS word to see the different options, such as icons and shapes.

- a- Insert b- Draw c- Edit d- Design

32- The includes all tools that you will need to make your drawing.

- a- Menu bar b- Colors c- Tool box d- Word

33- MS Word contains many options, including

- a- shapes b- 3D models c- coding d- a & b

34- You can select and cut certain parts of the image in Paint using the

- a- crop tool b- color fill tool c- brush tool d- a & b

35- To view the image in a larger size in paint program use

- a-  b-  c-  d- 

36- To present your ideas in a way that is characterized by the effects of sound and movement, you need to use program.

- a- MS Word b- paint c- PowerPoint d- MS Excel

37- A is a presentation page that contains your text and images.

- a- billboard b- slide c- sheet d-cell**

38- To add a new slide in the presentation, press Home tab, then

- a- insert b-new Slide c- slide Show d- edit**

39- Microsoft PowerPoint is used to create presentations that include

- a- text and animations b- special effects**
c- both a and b d- none of them

40- The is located at the top of the opening screen of the program.

- a- Menu bar b- Slide c- Image d- Text**

41- To insert pictures into your presentation, click then pictures.

- a- slide show b- transitions c- insert d- animation**

42- You can run your PowerPoint presentation through the key from the keyboard.

- a- F3 b- F4 c- F5 d- F6**

43- You should use the first slide to name the of your presentation.

- a- title b- subtitle c-both a & b d- conclusion**

44- You can change background colors in PowerPoint from the tab.

- a- Draw b- Design c- Transition d- Animation**

45- Using tab in PowerPoint, we can choose a visual effect to use between each slide.

- a- Draw b- Slide show c- Transition d- Design**

46- To prepare a good presentation you have to

- a- link the images in the presentation to the topic.**
b- add untrusted opinions and information to the presentation.
c- add too many fonts and colors to the presentation.
d- use only one font.

47- tab includes animation effects for each slide.

- a- Draw b- Animation c- Transition d- Review**

Put (✓) or (×):

- 1-** Many daily activities, like giving directional signals, are considered types of algorithms. ()
- 2-** When you solve a problem in math class, this is considered a type of algorithm. ()
- 3-** Algorithms help us determine which results are most relevant to our keywords. ()

ICT

- 4- An algorithm is a series of steps that explains how to perform a task. ()
- 5- Coding is the writing of multiple algorithms to make a complete program. ()
- 6- You can use programming codes to identify the paths needed to reach your goal. ()
- 7- Computers, like humans, use different languages. ()
- 8- The video games that you play online were made by coding. ()
- 9- There are many websites, such as Facebook.com, that can help you learn different programming languages. ()
- 10- The animations and movies you watch online are designed by Excel. ()
- 11- The first step in problem solving is hypothesis testing. ()
- 12- When making a guess to solve a problem, this guess is called the hypothesis. ()
- 13- When testing your hypothesis, it is necessary not to do any test that puts you at risk. ()
- 14- Problems should not be divided into small parts so as not to be difficult to solve. ()
- 15- Any big problem should be left without solving. ()

ICT

- 16-** It is important to break complex problems into small parts when solving them. ()
- 17-** If you solve a problem with your colleagues, assign each person one section. ()
- 18-** It is important to crowd the edges of your billboard. ()
- 19-** Having a 25-mm margin helps you create a well-designed poster. ()
- 20-** Make sure to choose a font size that is easy to read. ()
- 21-** If you choose a big font size' your audience will have to strain to read the information. ()
- 22-** We need images and colors to design a poster or a digital billboard. ()
- 23-** More decorative fonts in your poster are not preferable when making it. ()
- 24-** It is better to use more than three colors in the poster. ()
- 25-** Considering the background color is not important when choosing the font color. ()
- 26-** You should choose too small font size on poster for easy reading. ()
- 27-** You can't learn coding online. ()

- 28-** Search engines use digital map databases to provide directions. ()
- 29-** To open Paint, click on Accessories, then Start-up menu. ()
- 30-** The brush tool is used in Paint to enlarge parts of the image. ()
- 31-** The upper part of the Paint program is similar to Word and Excel. ()
- 32-** The icon  in Paint is used to view the image in a larger size. ()
- 33-** One of the disadvantages of Paint is that it does not include a toolbox. ()
- 34-** In Paint, you can add text to an image. ()
- 35-** Microsoft Paint allows you to change the size or direction of the photo. ()
- 36-** The Insert menu bar in MS Word includes graphic tools to make drawings. ()
- 37-** Use the cut tool in the paint toolbar to fill colors. ()
- 38-** One of the things to consider when preparing a presentation is to avoid writing long paragraphs. ()
- 39-** PowerPoint is used to design presentations with texts only. ()

- 40- Presenters often include their names in the subtitle box. ()
- 41- You cannot insert images you created in Paint into your PowerPoint presentation. ()
- 42- On the left side of the PowerPoint screen, you can see a thumbnail of each slide you're creating. ()
- 43- You can choose the background colors for each slide under the design options. ()
- 44- PowerPoint provides the ability to add animation to slides. ()
- 45- Microsoft Paint is a program used for editing pictures. ()
- 46- Microsoft Word doesn't have any graphic tools. ()

Complete the following using the words between the brackets:

(Algorithm – instructions – keywords – Computers – recipe)

- 1- When you prepare a meal, you follow a; this is a type or algorithm
- 2- is a series of steps that explain how to perform a task.

3- and applications do algorithms to perform functions.

4- A recipe is an algorithm which includes a set of for making a meal.

5- Every time you enter that about your research in a search browser, it uses certain algorithms to give you the results.

(fonts - margin – three – bold – Microsoft 365)

1- The empty space between the edges of the billboard is called

2- It is better not to use more than ... colors in the poster.

3- includes different options, such as PowerPoint and Word.

4- Sometimes, simple are better

5- Use colors for the information you want to emphasize.

Test

Choose the correct answer:

1- When creating a poster or billboard be sure to

- a- Choose a small font size**
- b- Choose complicated font size**
- c- Choose too big font size**
- d- Choose suitable font size and type**

2- To use images in the billboard it must be

- a- appropriate images and sizes**
- b- not clear images**
- c- very small images**
- d- bad quality images**

3- If you and your team faced a problem, to solve it

- a- assign each person section of it**
- b- assign the problem to one of them**
- c- only you solve the problem**
- d- keep the problem without solving**

4- To facilitate solve a big problem

- a- breaking down the problem into smaller section**
- b- don't solve it**
- c- don't assign the roles to team group**
- d- assign one solve**

5- You can type multiple algorithms to create a complete program by

- a- programming b- screen c- keyboard d- mouse

6- The program can recognize if the words typed correctly or not.

- a- word b- photoshop c- excel d- flash

7- The program is one of the famous programs in editing images

- a- Paint b- Word c- Facebook d- Twitter

8- The program used to create presentations that include text and special effects.

- a- PowerPoint b- Word c- Facebook d- Twitter

Put (✓) or (×):

- 1- Computers and applications need algorithms to work.()
- 2- Coding is used in animation, movies and online games you have played. ()
- 3- Word processing program verify that the words you type is correct. ()
- 4- Coding is the writing of multiple algorithms to make a complete program. ()

ICT

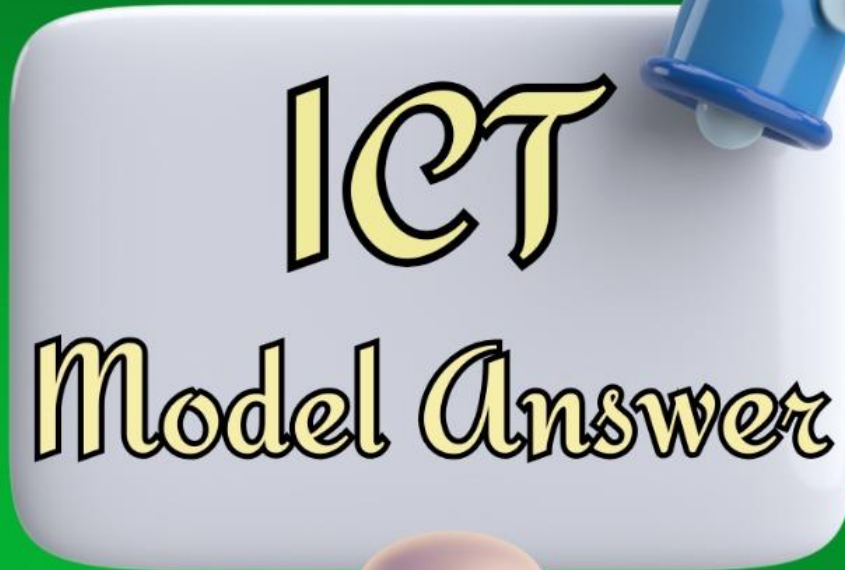

- 5- Code.org can help you learn to code using different coding languages. ()
- 6- Paint program is one of the famous programs used in editing images. ()
- 7- Microsoft PowerPoint used to create presentations that include text and special effects. ()
- 8- Microsoft paint allows design image and save it. ()
- 9- The slide is a presentation page that contains text and images. ()
- 10- The toolbox includes all the tools that you will need to make your drawing. ()
- 11- Microsoft PowerPoint allows you to insert new slide to your presentation. ()
- 12- You must be sure that your computer is updated to download Microsoft office 365 bundle. ()
- 13- Be sure to choose a font size to your poster or billboard that is easy to read. ()
- 14- Choice a complicated font size in the poster make it easy to read. ()
- 15- When making a poster or billboard you must be sure that the audience will be able to easily see your information. ()
- 16- Images should be suitable in sense terms of the content you are sharing. ()

Choose the correct answer:

1- Microsoft 365 package contains

- a- MS Word b- Paint**
c- Google Chrome d- a & b

2- The amount of empty space between the edges of a poster is called the

- a- font b- margin c- image options d- border**

3- Make sure to choose a font size that is when designing a poster or digital billboard

- a- very small b- easy to read**
c- very large d- complicated

4- To design a digital poster or billboard, you will need.....

- a- a computer b- GPS c- TV d- a router**

5- If you use font size, you will have to limit the amount of information.

- a- small b- too big c- suitable d- tiny**

6- When designing a poster, sometimes, fonts are better.

- a- decorative b- simple c- complicated d- a & c**

7- Use ...images to the content you are sharing in the poster.

- a- clear b- low-quality**
c- inappropriate d-irrelevant

8- Use for the information you want to emphasize.

a- small font size b- bold colors

c- tiny font d- a & c

9- are a set of arranged steps to solve a problem.

a- Search engines b- Algorithms

c- Keywords d- Sentences

10- You can type into the search engine to search for information online.

a- keyboards b- algorithms

c- keywords d- symbols

11- When you prepare a meal, you follow a recipe; this is considered as a/an

a- augmented reality b- algorithm

c- digital blogging d- order

12- An algorithm is a/an to do a task.

a- series of steps b- software

c- application d- hardware

13- is writing multiple algorithms to create a complete program.

a- Windows b- MS Word c- Coding d- Paint

14- You can learn coding and create mazes using many websites, such as

a- Code.org b- Vlaby

c- Mapmaker interactive d- Facebook

15- Like people, speak different languages

- a- Cars b- Animals c- Rocks d- Computer

16- You can create animations, movies, and games using.....

- a- Excel b- coding c- Word d- Google

17- You can at Code.org

- a- learn coding b- create mazes
c- eat breakfast d- a and b

18- The first step in problem solving is

- a- hypothesis testing b- asking your teacher
c- hypothesis building d- none of the previous answers

19- is an attempt to answer your question with an explanation that can be tested.

- a- Hypothesis building b- Hypothesis testing
c- Solving problems d- None of the previous answers

20- A/Anis an educated guess about how things work.

- a- algorithm b- maze c- hypothesis d- test

21- To solve a specific problem, you mustthe problem.

- a- leave b- break down c- prepare d- ignore

ICT

22- You should be careful when solving problems that may pose a risk to you during the step.

- a- hypothesis building b- hypothesis testing
 c- data collection d- reporting

23- You watched your teacher make sure that the keyboard cable is connected to the place designated for it; this means that he is taking the step.

- a- hypothesis building b- hypothesis testing
 c- digital footprint d- a and b

24- When you prepare a meal, you follow a/an

- a- recipe b- algorithm c- a & b d- letter

25- is one of the sites that helps learn programming.

- a- Code.org b- EKB c- Google d- Wikipedia

26- Microsoft is a popular graphics editor.

- a- Word b- Excel c- Paint d- Facebook

27- The top of the screen of Microsoft Paint is like.....

- a- MS Word b- MS Excel
 c- Skype d- both a and b

28- Microsoft Paint is a popular editor.

- a- features b- graphics c- video d- word

29- In Paint, you can

- a- draw b- add text c- search d- both a and b

ICT

30- The in MS Paint includes options for opening, saving files, and editing features.

- a- **Toolbox** b- **Layout** c- **Edit bar** d- **Menu bar**

31- You can click on the “.....” in MS word to see the different options, such as icons and shapes.

- a- **Insert** b- **Draw** c- **Edit** d- **Design**

32- The includes all tools that you will need to make your drawing.

33- MS Word contains many options, including

- a- **shapes** b- **3D models** c- **coding** d- **a & b**

34- You can select and cut certain parts of the image in Paint using the

- a- **crop tool** b- **color fill tool** c- **brush tool** d- **a & b**

35- To view the image in a larger size in paint program use

- a-  b-  c-  d- 

36- To present your ideas in a way that is characterized by the effects of sound and movement, you need to use program.

- a- **MS Word** b- **paint** c- **PowerPoint** d- **MS Excel**

ICT

37- A is a presentation page that contains your text and images.

- a- billboard b- slide c- sheet d-cell

38- To add a new slide in the presentation, press Home tab, then

- a- insert b- new Slide c- slide Show d- edit

39- Microsoft PowerPoint is used to create presentations that include

- a- text and animations b- special effects
c- both a and b d- none of them

40- The is located at the top of the opening screen of the program.

- a- Menu bar b- Slide c- Image d- Text

41- To insert pictures into your presentation, click then pictures.

- a- slide show b- transitions c- insert d- animation

42- You can run your PowerPoint presentation through the key from the keyboard.

- a- F3 b- F4 c- F5 d- F6

43- You should use the first slide to name the of your presentation.

a- title b- subtitle c- both a & b d- conclusion

44- You can change background colors in PowerPoint from the tab.

a- Draw b- Design c- Transition d- Animation

45- Using tab in PowerPoint, we can choose a visual effect to use between each slide.

a- Draw b- Slide show c- Transition d- Design

46- To prepare a good presentation you have to

a- link the images in the presentation to the topic.

b- add untrusted opinions and information to the presentation.

c- add too many fonts and colors to the presentation.

d- use only one font.

47- tab includes animation effects for each slide.

a- Draw b- Animation c- Transition d- Review

Put (✓) or (×):
