Lesson 07

USING PHOTO EDITING TOOLS

- You can use **Photo editing software** to alter images, making them look more professional.
- Graphic designers, photographers, and other creative professionals often use expensive software such as **Adobe Photoshop**.
- You can use similar tools for free with **GNU Image Manipulation Program (GIMP)**.
- **GIMP** is an **open-source** software that can be used on different operating systems.
- The **GIMP** program is another creation tool that you can use for **presentations**.

Some of the things you can do with GIMP

1 - Retouching

- This **enhances the photo** to make it look more beautiful.
 - 1- **Correct flaws** in the photo.
Ex.: Change red eyes from camera glare to the original color, make skin look smoother, or change the color of a jacket to make it brighter.
 - 2- **Change the background**.
If the photo was taken on a cloudy day, you can make the sky seem brighter.

2 - Blending

- This **combines two images** to make them look like one.
- This is useful when you present an idea for something that doesn't exist yet or show what something might look like.

3 - Special effects

- You can use different **filters** to add special effects to an image.
- EX.: you can make it look like something is moving in the photo with **motion blur**, or make it look very old with the **artistic filter gallery**.

- » GIMP is an **efficient** and **light** program, so it doesn't take up a lot of space on your hard drive.
- » It's a **widely** used program; there are online resources available to help you learn how to use it.
- » Although it has a large number of tools, you can customize the interface to show only the tools that you need. You can also create keyboard shortcuts to select tools easily.
- » You can download the main GIMP software.
- » There are many websites that allow you to use GIMP to edit photos online.
- » GIMP supports different file formats, and you can convert the image to different formats, such as: - **PDF** - **GIF** - **JPEG**.

Lesson 01

Explorer in action

Ms. Sonika Manandhar is:

- 1- financial technology entrepreneur
- 2-National Geographic Explorer
- She is from **Nepal**.
- Her studies focused on:
The engineering field, and robotics and artificial intelligence at Singularity University at NASA, in California.

Improving the Environment

- Ms. Manandhar uses her X™, formerly known as Twitter®, and Instagram accounts to spread awareness of the benefits of green micro-entrepreneurs for society.
- Ms. Manandhar wanted to use her knowledge to improve the local environment in Republic of Nepal by reducing the **carbon emissions rate**.
- She saw that using small **electric buses** could reduce the emission rate.
- She noticed that most of the **minibus drivers** in the capital Kathmandu were **women**

The fintech company Aloi

- In 2019, Ms. Manandhar co-founded the fintech company **Aloi**.
- **Aloi** is a company that helps people use financial services.
- **Aloi** helps **women minibus drivers** in the Republic of Nepal to get **low-interest loans**. These loans are used to:
 - 1- Buy electric minibuses
 - 2- Upgrade existing electric minibuses **with long-lasting lithium-ion batteries**.
- They receive and repay the loans through the **company's platform**, which is **simpler** and **faster** to use than most current bank loan procedures.
- When the **funder approves a loan**, the business owner gets a **digital token**.
- She spends the token with an approved seller, such as an electric vehicle seller.
- Then the business owner pays the funder back each month from the profits of her business.
- All financial transactions are sent via **SMS** (text), without the need to use the internet.
- The platform reports the payment information, so the funders know exactly how the loans were spent and how much is paid back.
- Passengers can **schedule rides** on the company's website and make payments using **digital tokens** or **mobile wallets**.

Egypt's First Electric Car

- As part of its strategy to adopt a **green economy**,
- Egypt launched its first locally manufactured **electric car**.
- In February 2023, the Arab Academy for Science, Technology and Maritime Transport announced the vehicle's specifications.
 1. The vehicle is designed to accommodate **five** people.
 2. Its maximum speed is **60** km/hr
 3. It uses a **lithium-ion battery**.
- The electric car is expected to have an **affordable** price for the Egyptian market.

Note:

- In Nepal, Riders can schedule and pay their rides using social media messaging tools on Facebook and Instagram with the digital platform's tokens or their own mobile wallet.
- **Mobile wallet** is an app for storing money used to:
 - 1- Send and receive funds
 - 2- Pay bills
 - 3- Book travel tickets
 - 4- Subscribe to services
 - 5- Allow users to access their money and use it electronically anywhere and at any time.

Lesson 02

OPERATING SYSTEMS AND SOFTWARE

Operating System (OS)

It is the software that manages a computer's functions, runs and coordinates the communication between the software and hardware, and allows a user to communicate with the computer easily.

- **Operating System (OS)** is the most important software on your computer. Without it, your computer is useless.
- OS ensures that all the software that is running at the same time gets what it needs from the Central Processing Unit (CPU), memory, and storage. This keeps your computer running smoothly.
- When you buy a computer or device, it usually has a **pre-loaded OS**.
- Most laptops and computers have **Microsoft Windows** pre-loaded, which is often used in schools and organizations.
- Apple Macintosh computers use **macOS**.
- You have to pay for different software for each of these operating systems, and macOS is generally more expensive.
- Smartphones and tablets use different operating systems, such as **Android** and **iOS**.

Mac OS

Changing the System Settings

- You can change the settings of an OS by using a **system settings control**.
- These controls have different names and appearances depending on the OS:

- **Windows:** Control Panel - **iOS:** Control Center - **macOS:** System Preferences

Windows Control Panel

- On most computers, you can locate the Control Panel by typing "Control Panel" into the search box in the taskbar.

All adjustable hardware and software settings and configurations can be modified in the Control Panel.

Example 1 Adding a New Wireless Printer

- 1- Select **Hardware and Sound**
- 2- Then **Add a device**
- 3- Select the one you want to add to your computer.

Example 2 Removing a Device

- 1- Select **Hardware and Sound**
- 2- Then **Add a device**
- 3- Select **Remove**.

The changes you make in the Control Panel are automatically applied to other software in your computer.

Example 3 Downloading a New Font

- 1- In the Control Panel, click on **Fonts**.
- 2- **Drag and drop** the font file from your **Downloads** folder into the fonts library.
 - Then, when you open any Microsoft Office program, the new font will be available in the fonts drop-down menu.

The **layout** and **graphical interface** of the Control Panel is different in each version of Windows since programmers try to improve it each time an updated OS is released.

Installing and Removing Programs

- Some software installs **automatically**.
- For example, when you **plug a new printer** into a PC, Windows downloads the correct software so you can use it immediately.

It is also simple to **remove** computer programs from your computer using these steps.

Removing a program in Windows

- Open the **Control Panel**. Select **Programs**.
- Then select **Programs and Features**.
- Find the program you want to uninstall from the list.
- Right-click on it or press and hold, then select **Uninstall** or **Uninstall/Change**.
- Follow the directions on the screen.

Removing a program in Android

- Open **Google Play Store app**, then tap on the Profile icon.
- Tap **Manage apps & devices**, then **Manage**.

Press and hold the name of the app you want to uninstall, then tap **Uninstall**.

Note:

- **Linux** is a family of **open-source** operating systems, which includes variants such as **Fedora, Linux Mint, and Debian**.
- **Open-source** means that anyone can run Linux for any purpose and make changes to it. It can be distributed by anyone around the world.
- Operating systems that use Linux often **run faster** and **more efficiently** than other OS, such as **Windows**.

Lesson 03

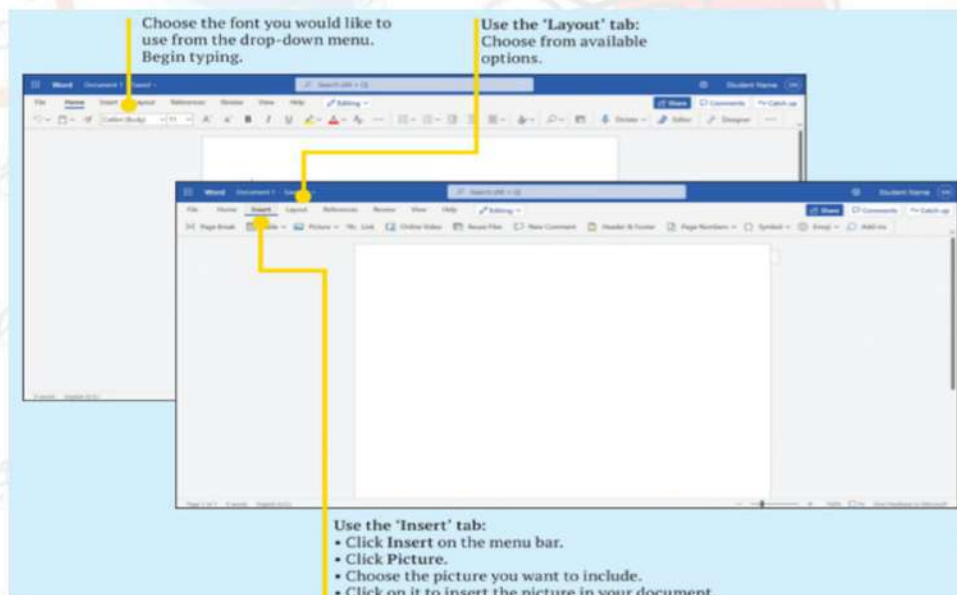

WRITING AND SHARING REPORTS

Writing a report in Microsoft Word

- **Microsoft Word** is still the most reliable creation tool to use for **writing reports** to share information.
- You've become quite comfortable writing reports in Microsoft Word and using **Microsoft Word tools**.
- To choose between different designs in **Microsoft Word**:
Click on the **Layout** and **Insert** tabs and choose the elements you want to include.

Microsoft Word tools

Formatting tools

- To:
- Add bold, and italicize words
 - Set up headings
 - Create tables
 - Insert images, hyperlinks, and footnotes.

Editing tools

- To
- Check reports for spelling, grammar, and conciseness.

Preview tools

- To
- View a document before saving or printing.

Messaging Services

- You can use messaging services, such as the **WhatsApp** to:
 - Communicate ideas.
 - Share information.
- You might also use messaging services to collaborate on a group project or to seek feedback from classmates or teachers.
- Like text messaging, messaging services allow you to send:
 - Text
 - Images
 - Voice messages
 - Videos
- You can include **one person** in a chat, or **many people**.

Advantages of messaging services like WhatsApp over standard text messaging

1. Since they use the internet, messages are almost always **free** to send and receive.
2. There are no special prices to worry about when messaging someone from across the world.
3. Messages sent are **encrypted** – only the intended recipient will be able to see the message.
4. Messaging services are compatible on any device and with both Android and Apple products.

There are **no restrictions**.

Lesson 04

CREATING A PRESENTATION

- You can use **Office Suite** to create presentations to express opinions and ideas.
- A suitable design can make presentations engaging and visually appealing.

**Microsoft PowerPoint**

- It includes **drawing** and **writing** tools to create text. **animation** options to add movement to sentences and words on your slides.
- You can use Microsoft **PowerPoint** to create **presentations** to communicate ideas and opinions.
- PowerPoint has easy-to-use tools to help make material visually appealing to interest viewers.

Tools for creating a presentation in PowerPoint

Tool	Usage
Design tab >> Slide Size	- Click on it to choose the size of your slide - Choose Standard or Widescreen . - Customize your own slide size.
Design tab >> Themes and Variants	- These tools help you to choose a style for your presentation, including design and text placement.
Save As >> PDF option	- To save your presentation as a PDF file before printing to keep its formatting .
Edit in Review mode	- To review your presentation. - In Review mode, you can make your changes, if there any text errors or issues with the layout.
File tab >> Print	- To see a final preview of your flyer and click Print.
Insert tab >> Pictures	- To add pictures to your presentation to help get your message across. - You can upload pictures from an online picture bank, a screenshot , or from your photo album .
Insert tab >> Text box	- to write your Text - Use the Text Box to carefully craft your message. - You can also use SmartArt but make sure it's easy to read. - Remember the 10-20-30 rule when it comes to text size!

10-20-30 Rule

- Slides** shouldn't be more than **10** slides
- Duration** shouldn't be longer than **20** minutes
- Fonts** shouldn't be smaller than **30** point size

March Questions Bank

Question 01

choose the correct Answer

- 1 GIMP is an software that can be used on different operating systems to change images.
 - a Close source
 - b open source
 - c paid source
- 2 The purpose of photo editing software is to
 - a write documents
 - b surf the internet
 - c alter images
- 3 GIMP is a Program.
 - a free
 - b paid
 - c expensive
- 4 is an open source image manipulation program that used on different operating systems.
 - a HTML
 - b GIMP
 - c Adobe Photoshop
- 5 is an example of paid photo editing software.
 - a MS word
 - b GIMP
 - c Adobe Photoshop
- 6 By using blending feature in GIMP, you can two images.
 - a separate
 - b combine
 - c delete
- 7 You can correct..... in a photo using GIMP.
 - a flaws
 - b audio quality
 - c video frames
- 8 "Retouching" feature in GIMP software involves
 - a writing codes
 - b editing videos
 - c enhancing photos
- 9 You can add to an image using GIMP.
 - a audio
 - b special effects
 - c video
- 10 You can use different to add special effects to an image in GIMP.
 - a filters
 - b flaws
 - c codes
- 11 You can make image look like something is moving in the photo with
 - a motion blur
 - b artistic filter gallery
 - c generic filter

- 12 You can make an image look very old with
- a motion blur b artistic filter gallery c generic filter
- 13 Ms. Sonika Manandhar is from
- a USA b Nepal c Kenya
- 14 Ms. Manandhar studies focused on the at Singularity University.
- a engineering field b AI and robotics c all the previous
- 15 Ms. Manandhar uses accounts to spread awareness of the benefits of green micro-entrepreneurs for society.
- a X™ (Twitter®) b Instagram c both of them
- 16 Ms. Sonika Manandhar is a/ an entrepreneur.
- a financial technology b social c electronic games
- 17 Ms. Manandhar want to use her knowledge to
- a study at google b improve the local environment c increase the emission rate
- 18 Egypt is launching its first electric car to adopt
- a self-driving cars b Green economy c environmental pollution
- 19 Aloi is a company helps people use financial services.
- a fintech b healthcare c education
- 20 In Nepal, Passengers can pay for their rides through
- a digital tokens b mobile wallets c both a and b
- 21 Aloi assists women from Nepal who drive minibuses to get
- a low-interest loans b medium-interest loans c high-interest loans
- 22 The business owner receive a upon loan approval.
- a bank transfer b cash c digital token
- 23 Ms. Manandhar wanted to reduce the carbon emissions rate by
- a using petrol cars b using electric cars c using gas cars
- 24 The first Egyptian electric car uses a battery.
- a lithium-ion b lead-acid c nickel- cadmium

- 25 is an app for storing money, you can use it to pay bills.
 (a) Physical token (b) Mobile wallet (c) Social media app
- 26 Egypt's first electric car is designed to accommodate people.
 (a) 3 (b) 5 (c) 7
- 27 Egypt's first electric car maximum speed is km/hr.
 (a) 60 (b) 90 (c) 120
- 28 All financial transactions are sent via , without the need to use the internet.
 (a) Email (b) Bank account (c) SMS
- 29 Operating system coordinates the communication between
 (a) hardware only (b) software only (c) hardware and software
- 30 Operating system is a type of
 (a) Software (b) hardware (c) programming language
- 31 Smartphones and tablets use operating system.
 (a) android (b) iOS (c) both a and b
- 32 Apple Macintosh computers use operating system.
 (a) iOS (b) macOS (c) Linux
- 33 The system settings control called in Windows.
 (a) Control Center (b) Control Panel (c) System Preferences
- 34 The system settings control called in macOS.
 (a) Control Center (b) Control Panel (c) System Preferences
- 35 The layout and graphical interface of the Control Panel is in each version of Windows.
 (a) different (b) the same (c) typical
- 36 To add a new wireless printer in Windows, You can select , then add a device.
 (a) System and Security (b) Hardware and Sound (c) Network and Internet
- 37 To download a new font in Windows, open control panel. Click on
 (a) Fonts (b) Format (c) Networks

- 38 The system settings control called in iOS.
 (a) Control Center (b) Control Panel (c) System Preferences
- 39 You can easily remove a program in windows by selecting in control panel, then uninstall.
 (a) System and Security (b) Programs and Features (c) Network and Internet
- 40 is still the most reliable creation tool to use for writing reports to share information.
 (a) Microsoft Word (b) Microsoft Excel (c) Microsoft Access
- 41 tools in Microsoft Word allows you to insert images, hyperlinks, and footnotes.
 (a) Review (b) Editing (c) Formatting
- 42 Messaging services, such as used worldwide for communication.
 (a) GIMP (b) WhatsApp (c) Aloj
- 43 tools in Microsoft Word used to check reports for spelling, grammar, and conciseness.
 (a) Preview (b) Editing (c) Formatting
- 44 You can view a document before saving or printing by using tools in Microsoft Word.
 (a) Preview (b) Editing (c) Formatting
- 47 Messaging services are compatible with operating system.
 (a) Android (b) iOS (c) both a and b
- 48 You can choose different designs in Microsoft Word by clicking on tab.
 (a) Insert (b) Layout (c) both a and b
- 49 Messages sent in WhatsApp are
 (a) encrypted (b) hacked (c) unencrypted
- 50 You can use messaging services, such as the WhatsApp to
 (a) communicate ideas (b) Share information (c) both a and b
- 51 By using WhatsApp messaging services, you can include in a chat.
 (a) one person (b) many people (c) both a and b
- 52 is a software program that can be used to create presentations.
 (a) MS Word (b) MS PowerPoint (c) MS Excel

- 53 The recommended rule to follow in a PowerPoint presentation is
- (a) 5-10-15 (b) 10-20-30 (c) 20-30-40
- 54 You can use in PowerPoint to create text and carefully craft your message.
- (a) Pictures (b) Themes (c) Text box
- 55 The maximum recommended duration for a PowerPoint presentation is minutes.
- (a) 10 (b) 20 (c) 30
- 56 Fonts shouldn't be smaller than point size in PowerPoint presentation
- (a) 30 (b) 40 (c) 50
- 57 Slides shouldn't be more than slides in a PowerPoint presentation.
- (a) 5 (b) 7 (c) 10
- 58 tab in PowerPoint allows you to choose a style for your presentation.
- (a) Design (b) Insert (c) Save As
- 59 To see a final preview of your presentation before printing, click on tab.
- (a) Design (b) File (c) Insert
- 60 tool can be used to add movement to sentences and words in PowerPoint.
- (a) Writing (b) Design (c) Animation

Question 02

put (√) or (×)

- 1 Graphic designers use expensive photo editing software, such as Adobe Photoshop. ()
- 2 GIMP is closed source software that can't be used on different operating systems. ()
- 3 The GNU Image Manipulation Program is paid software. ()
- 4 GIMP can be customized to display only the tools a user needs. ()
- 5 With GIMP, you cannot correct flaws in a photo. ()
- 6 Many websites allow you to use GIMP to edit photos online. ()
- 7 Adobe Photoshop and GIMP are free photo editing software. ()
- 8 GIMP can be used to blend two images together. ()

- 9 GIMP does not support adding special effects to an image. ()
- 10 GIMP is a heavy program that requires a lot of disk space. ()
- 11 You can find online resources to learn how to use GIMP. ()
- 12 In GIMP, you can convert the image to different formats, such as PDF, GIF and JPEG. ()
- 13 You can't change the background of images in GIMP. ()
- 14 GIMP allows you to change the color of objects in a photo. ()
- 15 GIMP can only be used on windows devices. ()
- 16 Ms. Sonika Manandhar co-founded the fintech company Aloj. ()
- 17 Ms. Manandhar uses her X™, formerly known as Twitter®, and Instagram accounts to spread awareness. ()
- 18 Ms. Manandhar noticed that most of the minibus drivers in the capital Kathmandu were men. ()
- 19 Aloj assists women minibus drivers in Nepal to obtain high-interest loans. ()
- 20 Passengers can schedule rides online through the company's website. ()
- 21 The electric minibuses could increase the emission rate. ()
- 22 Mobile wallet can be used to pay bills. ()
- 23 Using electric cars as a part of Egypt's strategy to adopt a green economy. ()
- 24 The electric car is expected to have an appropriate price for the Egyptian market. ()
- 25 All financial transactions are sent via Email, with the need to use the internet. ()
- 26 The loans obtained through Aloj are used to purchase petrol cars. ()
- 27 Aloj handles the loans process through the company's platform. ()
- 28 Egypt's first electric car is designed to accommodate seven people. ()
- 29 Ms. Manandhar studied engineering field, robotics and AI. ()
- 30 Most laptops and computers have Microsoft Windows pre-loaded. ()
- 31 All smartphones and tablets use the Android operating system. ()
- 32 MacOS is generally more expensive than other operating systems. ()
- 33 In Windows, the system settings control is called Control Center. ()

- 34 The changes you make in the Control Panel are automatically applied to other software. ()
- 35 Without an operating system, your computer will become useful. ()
- 36 You can change the settings of an OS by using a system settings control. ()
- 37 The layout and graphical interface of the Control Panel stay constant in all versions of Windows. ()
- 38 To uninstall an app on Android devices, you need to open Google Play Store app. ()
- 39 OS coordinates and manages the communication between your hardware and software. ()
- 40 All fonts are pre-downloaded on your computer, and you can't download a new font. ()
- 41 To remove a device, select Hardware and Sound from Control Panel, then select install. ()
- 42 Linux is a family of open-source operating systems. ()
- 43 Linux often run faster and more efficiently than other OS, such as Windows. ()
- 44 Microsoft Word is primarily used for writing reports. ()
- 45 Microsoft Word allows you to italicize words using editing tools. ()
- 46 You can only include one person in a chat through WhatsApp. ()
- 47 You can choose different designs in MS Word by clicking on the Layout and Insert tabs. ()
- 48 MS Word allows you to set up headings using formatting tools. ()
- 49 There are special prices when messaging someone from across the world on WhatsApp. ()
- 50 Messaging services are compatible only with Android devices. ()
- 51 You can view a document before saving or printing by using Preview tools in Microsoft Word. ()
- 52 Sending a photo using WhatsApp doesn't require internet access. ()
- 53 You can create tables by using Formatting tools in Microsoft Word. ()
- 54 You can choose the font you would like to use from the drop-down menu in Home tab. ()
- 55 You can use SmartArt in PowerPoint. ()
- 56 You cannot preview your presentation before printing. ()
- 57 Office Suite can be used to create presentations to express ideas. ()
- 58 MS PowerPoint includes drawing and writing tools to create text. ()

- 59 You can add pictures from the internet in PowerPoint. ()
- 60 As Per 10-20-30 rule, PowerPoint should exceed 10 slides. ()
- 61 You can customize your own slide size in PowerPoint. ()
- 62 PowerPoint allows saving presentations as PDF file. ()
- 63 PowerPoint does not provide text animation options. ()
- 64 You can choose the size of your slide as Standard only. ()
- 65 Review mode allows you to check any text errors or issues with the layout. ()
