**Read the following, then answer the questions:**

Birds are remarkable creatures that affect the hearts of many people with their beauty and behavior. There are over 10,000 different kinds of birds around the world. Bird size varies greatly, ranging from 2 inches to 2.75 metres. Strangely, some birds like the penguin cannot fly. Other birds are known for being intelligent like parrots.

Birds enjoy the freedom of moving anywhere without limits. They are quite social and enjoy singing as well. They are very important for the environment as they help control the insect population, spread seeds and help plants grow.

Most people like birds and enjoy listening to their songs. That is why some people keep them in cages. They think birds are happy there as they provide them with food and a safe place. In fact, birds enjoy flying and singing freely. If you like birds, open their cages and let them fly and feel free.
