2 Read and complete the text with the words from the box:

survive - organisms - adapted - change - characteristics

There are different environments in our world. All ① ..... have to adapt to their environment. All species of animals and plants have their own ② ..... and behave in ways that help them to ③ ..... Rabbits adapted to have long ears. Some insects have ④ ..... to look like a leaf, so other animals don't eat it.

**3 Read the following text and answer the questions:**

Having long ears is a key characteristic of a rabbit. Rabbits have lots of predators — bigger animals that hunt and eat them. The long ears help rabbits to hear well. Their ears can move, so the rabbit knows where a sound is coming from. The long ears also help the rabbit stay cool in hot weather, or keep warm in cold weather. So, long ears are very important for a rabbit’s survival. Over time, rabbits with longer ears become safer and healthier. They could live for longer and have more litter. They pass this trait to their offspring, and rabbits adapt to have long ears.

**A Choose the correct answer:**

- 1. Having long (legs - ears - noses) is a key characteristic of a rabbit.
- 2. Rabbits have lots of (predators - friends - cousins).

**B Answer these questions:**
