5

2026

1 Choose the correct answer:

a The number 45 is a multiple of number

a) 7

b) 9

c) 6

d) 2

b $34 \times \dots = (34 \times 5) + (34 \times 7)$

a) 7

b) 5

c) 12

d) 34

2 Answer each of the following:

a Find the G.C.F and L.C.M for 24 and 30.

.....
.....

b Find the quotient of division: $6,224 \div 16$

.....
.....

c A factory produces 320 toys each month.

What is the number of toys that are produced in 12 months?

.....
.....

d Estimate the product of $3,241 \times 48$ using rounding to the greatest place value.

.....
.....

1 Choose the correct answer:

2

a The smallest odd prime number is

- a) 1 b) 2 c) 3 d) 0

b The common multiple of all numbers is

- a) 1 b) 2 c) 3 d) 0

2 Answer each of the following:

8

a From the opposite area model, find the value of A and B.

.....
.....

	60	7
30	B	210
4	240	A

b Find the quotient of division: $3,350 \div 25$

.....
.....

c Write 5 multiples of number 7.

.....
.....

d A textile factory used 6,700 meters of silk fabric; the amount of wool fabric used was 3,500 meters less than the silk fabric. How many meters of wool fabric were use?

.....
.....

1 Choose the correct answer:

- a The number 45 is a multiple of number
 a) 7 b) 9 c) 6 d) 2
- b $34 \times \dots = (34 \times 5) + (34 \times 7)$
 a) 7 b) 5 c) 12 d) 34

2 Answer each of the following:

- a Find the G.C.F and L.C.M for 24 and 30.

$$24 = 3 \times 2 \times 2 \times 2$$

$$30 = 3 \times 2 \times 5$$

$$\text{G.C.F} = 3 \times 2 = 6$$

$$\text{L.C.M} = 3 \times 2 \times 2 \times 2 \times 5 = 120$$

- b Find the quotient of division: $6,224 \div 16$

$$\begin{array}{r} 389 \\ 16 \overline{) 6224} \\ \underline{- 62} \\ 48 \\ \underline{- 48} \\ 142 \\ \underline{- 128} \\ 144 \\ \underline{- 144} \\ 00 \end{array}$$

, then $6,224 \div 16 = 389$

- c A factory produces 320 toys each month.
 What is the number of toys that are produced in 12 months?
 The number of toys produced in 12 months = $320 \times 12 = 3,840$ toys
- d Estimate the product of $3,241 \times 48$ using rounding to the greatest place value.

If $3,241 \approx 3,000$ (to nearest 1,000) and $48 \approx 50$ (to nearest 10),
 then $3,241 \times 48 \approx 3,000 \times 50 = 150,000$

1 Choose the correct answer:

- a) The smallest odd prime number is
 a) 1 b) 2 c) 3 d) 0
- b) The common multiple of all numbers is
 a) 1 b) 2 c) 3 d) 0

2 Answer each of the following:

- a) From the opposite area model, find the value of A and B.

$A = 4 \times 7 = 28$, $B = 30 \times 60 = 1,800$

	60	7
30	B	210
4	240	A

- b) Find the quotient of division: $3,350 \div 25$

	100	30	4
	3,350	850	100
25	-	-	-
	2,500	750	100
	850	100	0

then $3,350 \div 25 = 134$

- c) Write 5 multiples of number 7.

Multiples of 7 are : 0 , 7 , 14 , 21 , 28

- d) A textile factory used 6,700 meters of silk fabric; the amount of wool fabric used was 3,500 meters less than the silk fabric. How many meters of wool fabric were use?

The amount of wool fabric = $6,700 - 3,500 = 3,200$ meters

1 Choose the correct answer:

- a** The divisor in $216 \div 43 = 5 \text{ R}1$ is
- a) 43 b) 216 c) 5 d) 1
- b** The estimation of 14×527 is
- a) 6,000 b) 500 c) 5,000 d) 140

2 Answer each of the following:

- a** From the opposite area model, write the dividend, the divisor, and the quotient.

	300	60	9
	8,856	1,656	216
24	-	-	-
	7,200	1,440	216
	1,656	216	000

The dividend: 8,856 , the divisor: 24 , the quotient: 369

- b** Youssef owns a restaurant. He sold 30 desserts in the first week and 40 desserts in the second week. Each dessert requires 100 grams of flour. How many grams of flour did he use in both weeks?

The total number of desserts in both weeks = $30 + 40 = 70$ desserts

The total amount of flour used = $70 \times 100 = 7,000$ grams

- c** Find the G.C.F and L.C.M for 12 and 18.

$$12 = 3 \times 2 \times 2$$

$$18 = 3 \times 2 \times 3$$

$$\text{G.C.F} = 3 \times 2 = 6$$

$$\text{L.C.M} = 3 \times 2 \times 2 \times 3 = 36$$

- d** A school distributed 840 books among 15 classes equally, find the number of books given to each class.

Number of books given to each class = $840 \div 15 = 56$ books

تطبيق

مذكرات جاهزة للطباعة
