الفصل الدراسي الأول

(A) Listening

نصوص الاستماع بجزء الإجابات

1 Listen and circle the correct answer from a, b, c or d:

1. Salma's favorite is Dr. Mostafa El-Sayed.
- a. teacher b. scientist c. police officer d. engineer
2. He discovered how nanoparticles can treat some types of cancer.
- a. gold b. plastic c. wood d. silver
3. His in nanoscience is very important for medicine.
- a. work b. book c. research d. magazine
4. He is a Egyptian scientist who makes Egypt proud.
- a. brilliant b. lazy c. bad d. hard

(B) Reading

2 Choose the correct answer from a, b, c or d:

1. To is to make something look nice or beautiful.
- a. decorate b. believe c. protect d. wear
2. Hana spends her money when she goes shopping. She doesn't waste it.
- a. simply b. wisely c. kindly d. nicely
3. Plastic and bricks are man-made
- a. resources b. plants c. factories d. tips

3 Read and complete the text with the words in the box:

pollution – store – leftover – smart

In Egypt, people waste a lot of food every day. Many families cook more than they need and throw away (1) food after meals. When good food is wasted, money and water are wasted too. The garbage increases and causes more (2) in cities. To solve this problem, people should plan meals, buy less, and (3) food in the right way. Small actions can help protect our environment and save food for others.

4 Read the text and answer the questions:

Every day, we use energy to live comfortably, cook, play games, and use machines at home. But when we waste too much energy, we hurt our planet. Some energy comes from oil and gas, which make the air dirty. Other kinds, like solar and wind energy, are clean and safe. Egypt has bright sunshine almost every day, so solar power is a great choice. We can save energy by switching off lights, walking instead of driving, and unplugging chargers. If everyone saves a little, we can protect the Earth together!

(A) Choose the correct answer from a, b, c or d:

- The underlined word “solar” means “related to the ”.
a. wind b. air c. sun d. moon
- We can the Earth if we save energy.
a. protect b. harm c. hurt d. waste

(B) Answer the following questions:

- What is the general idea of the text?
.....
- Why is solar power a perfect choice for Egypt?
.....
- How can we save energy?
.....

(C) Writing

5 Put the words in the correct order to make sentences:

1. saw – a papyrus – a picture – I – of – scroll

2. at – Dr. Mostafa El-Sayed – University – studied – Ain Shams – in Cairo.

6 Read and write the correct form of the word(s) between brackets:

1. We (must) sleep all day and do nothing.

2. Mai (shouldn't) tidy her room and keep it clean.

7 Punctuate the following:

1. are you working on the history project

2. paper is made from trees and processed in factories

8 Write an email of FIFTY (50) words using the following guiding elements:

Your name is Amr and your email address is (amr@yahoo.com). Your friend's name is Nader and his email address is (nader@gmail.com).

“The High Dam”

نصوص الاستماع بجزء الإجابات

1 Listen and circle the correct answer from a, b, c or d:

1. Solar and power are clean energy.
a. fuel b. wind c. soil d. water
2. Oil and gas can the Earth.
a. help b. clean c. waste d. harm
3. We must use wisely and save it.
a. energy b. climate c. sunshine d. device
4. Small can make a big difference.
a. steps b. types c. actions d. moves

(B) Reading

2 Choose the correct answer from a, b, c or d:

1. The tourists saw amazing ancient Egyptian on the temple walls.
a. amulets b. weather c. phones d. computers
2. My big brother saved a child from danger. He's a true
a. hero b. loser c. gamer d. coward
3. A/An is the usual weather in a place over a long time.
a. energy b. planet c. climate d. nature

3 Read and complete the text with the words in the box:

recycle – explain – bricks – man-made

People use different resources every day to make life easier at home, at school, and in factories. Some come from nature, and others are created by people. These (1) materials include plastic, glass, and paper which we use in our daily life. Workers also make (2) from clay to build strong houses and high walls. We should (3) old things like paper, bottles, and cans to save energy and protect our beautiful planet.

4 Read the text and answer the questions:

Dr. Magdi Yacoub is a famous Egyptian scientist and heart surgeon. He was born in 1935 and became one of the best doctors in the world. He worked in London for many years and helped thousands of patients with serious heart problems. One of his greatest achievements was improving heart surgery for children. He also built hospitals and trained young doctors in Egypt and Africa. Because of his great work, he received many awards and honors. Dr. Yacoub is not only a brilliant doctor but also a kind man who saves lives every day.

(A) Choose the correct answer from a, b, c or d:

1. Dr. Magdi Yacoub is a famous surgeon.
a. nose b. heart c. leg d. kidney
2. He heart surgery for children.
a. watched b. paid c. built d. improved

(B) Answer the following questions:

3. When was Dr. Magdi Yacoub born?

.....

4. What did he receive for his great work?

.....

5. Summarize the text in one sentence.

.....

(C) Writing

5 Put the words in the correct order to make sentences:

1. people – The – many – helps – High Dam – ways. – in

2. is – Stone – used – buildings. – in – modern

6 Read and write the correct form of the word(s) between brackets:

1. You must (ate) vegetables and fruits.

2. Ali and Lara (should) be late for school.

7 Punctuate the following:

1. people don't think about wasting food

2. energy is something we all need every day

8 Write a paragraph of FIFTY (50) words using the following guiding elements:

“The problem of food waste”

- What are the causes?
- What are the solutions?

GOOD LUCK

(A) Listening

نصوص الاستماع بجزء الإجابات

1 Listen and circle the correct answer from a, b, c or d:

1. Sami is a/an farmer.
 - a. Egyptian
 - b. British
 - c. American
 - d. French
2. The High Dam helps Sami grow all year.
 - a. shoes
 - b. floods
 - c. crops
 - d. tips
3. The dam stops flooding and gives clean
 - a. drought
 - b. electricity
 - c. information
 - d. cloth
4. The High Dam makes life easier for
 - a. teachers
 - b. doctors
 - c. firefighters
 - d. farmers

(B) Reading

2 Choose the correct answer from a, b, c or d:

1. Oil is a black that Egypt sells to other countries.
 - a. metal
 - b. liquid
 - c. gas
 - d. steel
2. Papyrus is It's from a long time ago.
 - a. ancient
 - b. new
 - c. modern
 - d. simple
3. The famous scientist made an amazing in the field of science.
 - a. cause
 - b. rule
 - c. achievement
 - d. type

3 Read and complete the text with the words in the box:

awards – experiments – expert – nanoparticles

Dr. Mostafa El-Sayed is one of the most famous Egyptian scientists in the world. He studied hard and became an international (1) in chemistry. During his research, he worked on tiny gold (2) that can help doctors find new ways to fight diseases. His brilliant ideas changed modern science. For his great work, he received many (3) from different countries. Dr. El-Sayed's success inspires young people to believe in the power of science.

4 Read the text and answer the questions:

Thousands of years ago, the ancient Egyptians used many natural materials to build and decorate their world. They used stone to build pyramids and statues that still stand today. Clay was used for pots and jars to store food and water. They wove linen clothes from flax and wrapped mummies with it. Gold and colorful stones were used for jewelry and small statues. These materials were strong and useful, so they lasted for centuries. Ancient Egyptian builders and artists were creative and skilled, making their work admired around the world.

(A) Choose the correct answer from a, b, c or d:

- The text is about in ancient Egypt.
a. materials b. sports c. food d. clothes
- The ancient Egyptians made pots and jars from
a. gold b. flax c. clay d. stone

(B) Answer the following questions:

- What did the ancient Egyptians use stone for?
.....
- How did the ancient Egyptians wrap mummies?
.....
- What did ancient Egyptian builders and artists prove?
.....

(C) Writing

5 Put the words in the correct order to make sentences:

1. food – Wasting – and – water. – wastes – money

2. from – Ancient – statues – Egyptians – carved – granite. – huge

6 Read and write the correct form of the word(s) between brackets:

1. Amr is sick. He (shouldn't) stay at home.

2. You should (are) kind to others.

7 Punctuate the following:

1. you must turn off the lights to save energy

2. gold is a beautiful yellow, shiny metal.

8 Write a diary of FIFTY (50) words using the following guiding elements:

“Man-made resources”

(plastic – paper)

GOOD LUCK

(A) Listening

نصوص الاستماع بجزء الإجابات

1 Listen and circle the correct answer from a, b, c or d:

1. Mrs. Salma teaches students about resources.

- a. natural b. ground c. man-made d. fake

2. comes from oil and glass comes from sand.

- a. Plastic b. Wood c. Water d. Soil

3. Paper is made from trees in

- a. factories b. schools c. hospitals d. playgrounds

4. People should paper and plastic to help the planet.

- a. throw b. buy c. dry d. recycle

(B) Reading

2 Choose the correct answer from a, b, c or d:

1. The we saw at the museum were very scary.

- a. mummies b. jewelry c. jars d. stones

2. Naguib Mahfouz received many for the books he wrote.

- a. discoveries b. awards c. effects d. solutions

3. is a strong metal used to make buildings and bridges.

- a. Gold b. Iron c. Gas d. Fuel

3 Read and complete the text with the words in the box:

iron – oil – gas – minerals

Egypt has many valuable things under the ground. These (1) are very important for the country's growth, work, and industry. In the wide deserts of Egypt, workers find black (2) that can be used to make fuel and produce energy for homes. The country also has (3), which helps build strong bridges, cars, and tall buildings. By using these natural materials wisely, Egypt can stay strong and develop a better and brighter future for everyone.

4 Read the text and answer the questions:

Some people think food is endless, but it's not. Every plate of rice or piece of bread takes hard work to make and reach our homes. Farmers, drivers, and shop workers all spend time and energy to bring it to us. When we waste food, we waste their effort and the planet's resources too. Throwing food away also means losing money and clean water. We can make a change by eating what we take, sharing with others, and saving what's left for later. Wise people never waste food — they respect it and the hands that made it.

(A) Choose the correct answer from a, b, c or d:

1. The underlined word "waste" is similar in meaning to ".....".
a. save b. throw c. walk d. think
2. By not wasting food, we the hands that made it.
a. respect b. harm c. eat d. drink

(B) Answer the following questions:

3. What do we waste when we waste food?
.....

4. How can we make a change?
.....

5. Summarize the text in one sentence.
.....

(C) Writing

5 Put the words in the correct order to make sentences:

1. save – You – turn off – must – energy – lights. – and

2. the – people? – How – High Dam – does – help

6 Read and write the correct form of the word(s) between brackets:

1. My sister has a toothache. She (should) eat candy.

2. You must (staying) quiet in the library.

7 Punctuate the following:

1. Why did the Egyptians build the High dam

2. Dr. El-Sayed received the U.S. National Medal of Science

8 Write a paragraph of FIFTY (50) words using the following guiding elements:

“An Egyptian scientist”

(expert – awards)

GOOD LUCK

(A) Listening

نصوص الاستماع بجزء الإجابات

1 Listen and circle the correct answer from a, b, c or d:

1. food is a big problem in Egypt.
- a. Making b. Growing c. Wasting d. Having
2. It wastes money and that could be used for other things.
- a. energy b. water c. paper d. gold
3. people don't get enough food.
- a. Rich b. Successful c. Great d. Poor
4. Garbage causes and harms the environment.
- a. pollution b. cleanliness c. perfection d. excellence

(B) Reading

2 Choose the correct answer from a, b, c or d:

1. When something is, it's covered by putting material or cloth around it.
- a. wrapped b. modern c. ancient d. survived
2. Please, don't use your in the classroom.
- a. book b. notebook c. phone d. pen
3. During a, people must save water and use it wisely.
- a. flood b. rain c. storm d. drought

(C) Writing

5 Put the words in the correct order to make sentences:

1. searching – I'm – research. – for – internet – the – my

2. linen – She – a soft – wearing – dress. – is

6 Read and write the correct form of the word(s) between brackets:

1. We should (helped) our friends when they need us.

2. You (must) throw garbage on the floor.

7 Punctuate the following:

1. Dr. mostafa El-Sayed is a brilliant Egyptian scientist

2. wasting food wastes money and water

8 Write an email of FIFTY (50) words using the following guiding elements:

Your name is Heba and your email address is (heba@gmail.com). Your friend's name is Soha and her email address is (soha@yahoo.com).

“Using energy wisely”

- What are examples of clean energy?

Test 1 Answers

(A) Listening

Listening Script:

My name is Salma. I'm a doctor. My favorite scientist is Dr. Mostafa El-Sayed. His work helps doctors like me. He discovered how gold nanoparticles can detect and treat some types of cancer. His research in nanoscience is very important for medicine. He is a brilliant Egyptian scientist who makes Egypt proud. His ideas help us give better care to sick people.

1 Listen and circle the correct answer from a, b, c or d:

1. (b) 2. (a) 3. (c) 4. (a)

(B) Reading

2 Choose the correct answer from a, b, c or d:

1. (a) 2. (b) 3. (a)

3 Read and complete the text with the words in the box:

1. leftover 2. pollution 3. store

4 Read the text and answer the questions:

(A) Choose the correct answer from a, b, c or d:

1. (c) 2. (a)

(B) Answer the following questions:

3. The text is about saving energy and protecting the Earth.
4. Solar power is perfect for Egypt because it has bright sunshine almost every day.
5. We can save energy by turning off lights, walking instead of driving, and unplugging chargers.

(C) Writing

5 Put the words in the correct order to make sentences:

1. I saw a picture of a papyrus scroll.
2. Dr. Mostafa El-Sayed studied at Ain Shams University in Cairo.

6 Read and write the correct form of the word(s) between brackets:

1. mustn't
2. should

7 Punctuate the following:

1. Are you working on the history project?
2. Paper is made from trees and processed in factories.

8 Write an email of FIFTY (50) words using the following guiding elements:

To : nader@gmail.com

From : amr@yahoo.com

Subject: The High Dam

Hi Nader,

How are you? I want to tell you about the High Dam. It is a **huge wall** in Aswan that helps Egypt control the Nile River. It also gives farmers water to **grow crops** and produces clean electricity for people every day. It's very important for Egypt.

Yours,

Amr

Test 2 Answers

(A) Listening

Listening Script:

Energy is very important for daily life. Some types of energy, like solar and wind power, are clean energy and do not pollute the environment. Other types, like oil and gas, can harm the Earth. We must use energy wisely and save it by turning off lights and using the right-sized pot for cooking. Small actions can make a big difference.

1 Listen and circle the correct answer from a, b, c or d:

1. (b) 2. (d) 3. (a) 4. (c)

(B) Reading

2 Choose the correct answer from a, b, c or d:

1. (a) 2. (a) 3. (c)

3 Read and complete the text with the words in the box:

1. man-made 2. bricks 3. recycle

4 Read the text and answer the questions:

(A) Choose the correct answer from a, b, c or d:

1. (b) 2. (d)

(B) Answer the following questions:

3. He was born in 1935.
4. He received many awards and honors for his great work.
5. Dr. Magdi Yacoub is a famous Egyptian heart surgeon who helped many people.

(C) Writing

5 Put the words in the correct order to make sentences:

1. The High Dam helps people in many ways.
2. Stone is used in modern buildings.

6 Read and write the correct form of the word(s) between brackets:

1. eat
2. shouldn't

7 Punctuate the following:

1. People don't think about wasting food.
2. Energy is something we all need every day.

8 Write a paragraph of FIFTY (50) words using the following guiding elements:

The problem of food waste is serious in Egypt. People make more food than they eat. Restaurants throw away leftovers every day. This wastes money and clean water. We can plan meals and store food well at home. We should feed animals leftovers and always help food banks wisely.

Test 3 Answers

(A) Listening

Listening Script:

My name is Sami. I'm an Egyptian farmer. The High Dam helps me grow crops all year. It gives water for irrigation, so I can grow vegetables, fruits, and grains even when the Nile is low. The dam stops flooding and gives clean electricity. It makes life easier for farmers like me, and I am happy it helps people in Egypt every day.

1 Listen and circle the correct answer from a, b, c or d:

1. (a) 2. (c) 3. (b) 4. (d)

(B) Reading

2 Choose the correct answer from a, b, c or d:

1. (b) 2. (a) 3. (c)

3 Read and complete the text with the words in the box:

1. expert 2. nanoparticles 3. awards

4 Read the text and answer the questions:

(A) Choose the correct answer from a, b, c or d:

1. (a) 2. (c)

(B) Answer the following questions:

3. They used stone to build pyramids and statues.
4. They wrapped mummies with linen made from flax.
5. They proved that they were creative and skilled.

(C) Writing

5 Put the words in the correct order to make sentences:

1. Wasting food wastes money and water.
2. Ancient Egyptians carved huge statues from granite.

6 Read and write the correct form of the word(s) between brackets:

1. should
2. be

7 Punctuate the following:

1. You must turn off the lights to save energy.
2. Gold is a beautiful, yellow, shiny metal.

8 Write a diary of FIFTY (50) words using the following guiding elements:

– 15 November

Man-made resources are things that people create using natural materials. **Plastic** is made from oil and used for bottles, toys, and school things. **Paper** is made from trees and used for writing and reading. We can recycle plastic and paper to keep our world clean and safe.

Test 4 Answers

(A) Listening

Listening Script:

I'm Mrs. Salma, and I'm a teacher. I teach students about man-made resources. These resources are created using natural materials. Plastic comes from oil, glass comes from sand, and bricks come from clay and water. Paper is made from trees in factories. People should recycle paper and plastic to help the planet. My students learn how science helps people make useful things every day.

1 Listen and circle the correct answer from a, b, c or d:

1. (c) 2. (a) 3. (a) 4. (d)

(B) Reading

2 Choose the correct answer from a, b, c or d:

1. (a) 2. (b) 3. (b)

3 Read and complete the text with the words in the box:

1. minerals 2. oil 3. iron

4 Read the text and answer the questions:

(A) Choose the correct answer from a, b, c or d:

1. (b) 2. (a)

(B) Answer the following questions:

3. We waste people's effort, the planet's resources, money, and clean water.
2. We can make a change by eating what we take, sharing with others, and saving leftovers.
3. The text is about the importance of not wasting food and respecting the effort behind it.

(C) Writing

5 Put the words in the correct order to make sentences:

1. You must save energy and turn off lights.
2. How does the High Dam help people?

6 Read and write the correct form of the word(s) between brackets:

1. shouldn't
2. stay

7 Punctuate the following:

1. Why did the Egyptians build the High Dam?
2. Dr. El-Sayed received the U.S. National Medal of Science.

8 Write a paragraph of FIFTY (50) words using the following guiding elements:

- Dr. Mostafa El Sayed is a famous Egyptian scientist. He is an **expert** in chemistry and nanoscience. He studied in Egypt and the United States. He worked with gold nanoparticles to help doctors treat cancer. He received many **awards** for his great work and made Egypt very proud.

Test 5 Answers

(A) Listening

Listening Script:

Wasting food is a big problem in Egypt. It has many bad effects. It wastes money and water that could be used for other things. Poor people don't get enough food, while good food is thrown away. More garbage is made, which causes pollution and harms the environment. Food waste is a big problem for people and the planet.

1 Listen and circle the correct answer from a, b, c or d:

1. (c) 2. (b) 3. (d) 4. (a)

(B) Reading

2 Choose the correct answer from a, b, c or d:

1. (a) 2. (c) 3. (d)

3 Read and complete the text with the words in the box:

1. granite 2. papyrus 3. amulet

4 Read the text and answer the questions:

(A) Choose the correct answer from a, b, c or d:

1. (c) 2. (a)

(B) Answer the following questions:

3. It was built between 1960 and 1970.
4. Before the dam was built, floods destroyed farms and droughts made life difficult.
5. The dam helps Egypt by saving water and producing clean electricity for millions of people.

(C) Writing

5 Put the words in the correct order to make sentences:

1. I'm searching the internet for my research.
2. She is wearing a soft linen dress.

6 Read and write the correct form of the word(s) between brackets:

1. help
2. mustn't

7 Punctuate the following:

1. Dr. Mostafa El-Sayed is a brilliant Egyptian scientist.
2. Wasting food wastes money and water.

8 Write an email of FIFTY (50) words using the following guiding elements:
